

## Praying Through This Week 23<sup>rd</sup> May 2022

While reading up about Moses I came across this: Moses was called **the** man of God.

We sometimes hear that “Prayer does not bring God to man, but man to God.” Moses understood this and even more! His relationship with God is based on a clear understanding of his character. And he often capitalised on this relationship to intercede between God and his people.

**“Prayer is the breath of our soul”.**

There are dire moments in our lives that cannot be solved by our own might. And all we are left to do is to take it to God in prayer.

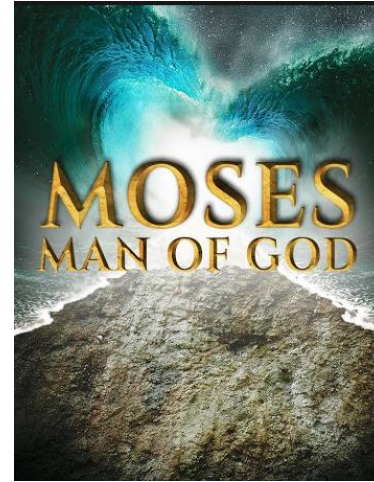

How might we pray better?

How does our relationship with God, affect our prayers?

Do we have a clear understanding of God’s character?

Dear Lord and Heavenly Father, the trials and difficulties that surround us, seem at times to take up so much of our thoughts and prayers, but Lord I ask that You would give me a deeper understanding of how to pray into Your perfect and eternal will, for You have put eternity in my heart and I desire to pray in unity with Your Spirit and in line with Your will. Amen
